### OPTION 1: MEASURE AN EXISTING RING

1. Select an existing ring that fits your desired finger.
2. Place the ring over the circles below until the inside circumference of the ring matches a specific circle.
3. If your ring falls in between two sizes, consider the width of the band. A wider band may require a slightly larger ring size.

### OPTION 2: USE RING SIZER TO MEASURE FINGER

1. Print and carefully cut out the below ring sizer.
2. Place the end of the ring sizer through the indicated slit to form a loop.
3. Wrap the loop around your finger with the letters side visible. The letter that appears closest to the slit is your ring size.
